### **Original Vote Totals for Reporting Unit**

Number of Voters from Registration List: 112

Number of Absentee Ballot Applications: 7

Number of Absentee Ballots: 7

Notes: Exhibit #1 – Rejected absentee not counted on election night because there was no information completed in the upper left hand corner of the envelope. Called Ross Hein at the GAB and he instructed us that if both the voter's and the witness's signature is on the envelope that we should count the ballot. We opened the ballot to count it. The vote was an undervote for the race of Justice of the Supreme Court.

Exhibit #2 – Rejected the absentee ballot discussed in Exhibit #1 due to the voter not being on the poll list and no EB-131 completed on Election Day.

Original Vote Totals for Reporting Unit:

Number of Voters from Registration List: 104

Number of Absentee Ballot Applications: 0

Number of Absentee Ballots: 0

Notes:

Poll list shows 106 voters, tabulators counted 5 paper ballots; machine shows 99 ballots cast and tabulators counted 99 ballots on the machine roll. Canvassers did a check on the poll list numbers and found that voter #13 and #29 were both listed on the poll book and the supplemental sheets. Total number of voters is only 104.

Exhibit #5 - Upon canvassing we found a ballot that does not say "Official Record" nor does it show the Supreme Court race or Appeals Court race; it only says "Chair" with the Town candidates below it. Called Ross Hein at GAB and he said we would need to run an audit report to see how the ballot was cast. Called Command Central and emailed a copy of the ballot to them. Larry swift instructed us to obtain a voting machine and call him back so he could guide us through the process of how to run an audit report. Lisa Braaten went to the City of Alma and borrowed a machine and we ran the audit report. Larry instructed us that we would need to go thru the audit listing use the code numbers to determine the vote. #124 was Prosser and 125 was Kloppenburg. It is unknown why the machine cast an odd looking ballot, but with the audit report we were able to find the missing vote.

Original Vote Totals for Reporting Unit:

Number of Voters from Registration List: 63

Number of Absentee Ballot Applications: 2

Number of Absentee Ballots: 2

Notes:

There were no absentee notations associated with voters on the poll list. Canvassers made the correction to the 2 affected voters. Inside the plastic ballot bag was a yellow numbered seal not issued by the County Clerk. Inspectors Statement shows it was used on the ballot box at the polling place. Some ballots have the municipality name on the back and some do not. The unused ballots were in the bag.

Exhibit #6 – Town poll list has double voter numbers on it. (Example: 12-3). After reviewing the entire poll book we have verified that the double numbers indicate what number the person is on the school district's poll book.

Inspectors Statement has an indication that there is one ballot that was rejected because voter intent could not be determined. The canvassers did not find any ballot where voter intent was not able to be determined in regards to this contest. This resulted in a vote change, with Prosser gaining one vote.

Notes: I informed those present as to the ballot bag having been opened and the seal changed already. During our original canvass there were issues with the number of voters and the vote count that was called in on election night. I was able to determine how many ballots were cast on the voting machine but could not tell how many were cast on paper ballots and neither number was matching the numbers on the GAB-190 or on the Inspectors Statement. We called in the municipal clerk who opened the ballot bag and we had to recount the paper ballots.

Some of the paper ballots have the municipal names on it and some do not. First count of machine votes is off by 1 vote. Second count is accurate.

Notes:

There are names of voters highlighted in yellow on the “City” poll list, but no reason as to why they are highlighted.

Exhibit #8 – There are 16 voters marked as absentee voters and 16 absentee envelopes, but we can only identify 15 absentee ballots. Cannot find any rejected absentee envelopes or ballots. There are no notations on Inspectors Statement. Called clerk and she is not sure what happened to make the count off.

Exhibit #9 – Inspector Statement and GAB-190 22 paper ballots but there are only 21 paper ballots in the bag. Canvassers verified there are 235 voters so there appears to be a paper ballot missing. Called Clerk and everything she has went in the bag so she is not sure what happened. The missing paper ballot appears to be an absentee as stated in Exhibit #8.

Original Vote Totals for Reporting Unit:

Number of Voters from Registration List: 308

Number of Absentee Ballot Applications: 15 envelopes

Number of Absentee Ballots: 14 absentee ballots located inside ballot bag.

Notes: Exhibit #10 – When reconciling poll list we found several issues as follow:

Number of ballots cast does not equal number of voters on poll list;

Ward 1 on Page 19 of the City poll list is missing number 153;

Page 24 is missing number 149 on the City poll list;

Poll lists show 16 absentee voters, but found only 15 envelopes;

Reviewed poll list a second time and found error on the “M” page there were no absentees on this page but canvassers counted one in error – absentee voters now matches the number of absentee envelopes;

Canvassers still showing 309 people but should only have 308 according to GAB-190. Used a number sheet to find error in numbering. Voter #64 Tyler Schmidtknecht was given a number (same number) on the regular portion of the poll list and also on the supplemental portion. He had moved and should have only been given a number in one section. Canvassers originally counted these as 2 separate people;

Ward 1 Page 22 Jacquelynn Lettner & Ward 1 Page 26 Ronald Novak on County list both have #278, but on City list Novak has #273;

Ward 1 Page 31 Paul Schaffner and Ward 2 Page 1 Keith Abts both are #262 on both lists;

Ward 1 Page 10 Peggy Duellman and Ward 2 Page 4 Zac Czaplewski both were given voter number 10;

Numbers 263 and 236 were not used at all;

Exhibit #11 - Found initialed unvoted ballots in a stack of unused ballots. There appears to be an absentee ballot in this stack which would make the absentee ballots cast match the absentee certificate envelopes. Board of Canvass reviewed the initialed ballot and could see that it had been creased 3 times as if it were in an envelope. The Canvass Board voted to count the ballot.

Exhibit #12 - In the stack of unused initialed ballots we also found 10 regular ballots. 6 of these ballots have a definite crease that the other cast ballots have to put them in the ballot box. This would match the 6 ballots that we are short in order to equal the number of voters on the poll list. It is the consensus of the Board of Canvassers to count these ballots with the cast ballots. All these ballots are listed as undervotes.

Called Clerk on Exhibit #11 and #12 she said that she had a new person she was training and that person must have mistaken the undervoted ballots as unused and placed them with the extra ballots.

Exhibit #13 – We found 2 ballots in the ballot bag with only 1 set of initials and voted to rule those as defective. 1 of these ballots has a vote cast and 1 is an undervote. Called GAB for a ruling per the request of Ms. Pero. Ross Hein instructed us that unless we have more ballots than voters we should be counting those ballots. Since the total number of ballots does equal the number of voters we counted those ballots.

Exhibit #14 – We found only 131 machine ballots but the report says that we should have 132. Called Clerk and she said the machine ran out of paper and when the new paper roll was put in it was put in backwards. She forgot to make a note of this on the inspector's statement. Called Command Central to have them help us run an audit report and canvassed from this audit report.

**Original Result: David T. Prosser, Jr. - 232**

**Joanne F. Kloppenburg – 329**

Canvass Board Members: Roxann M. Halverson, Tracy Gurin, Kathy Kosidowski

Other Personnel: Renee Lindstrom

Others Present: Colleen Pero and Chuck Buckley

Notification: Candidates notified – yes - public notified - yes

### Electronic Voting Equipment Test Results:

DRE Machine used – hand counted these ballots

Optical Scan Machine – ran test deck and all votes counted. We chose to run the ballots thru the optical scanner as directed by the GAB and also hand count these ballots just to ensure all votes were counted for.

### Original Vote Totals for Reporting Unit:

Number of Voters from Registration List: 573

Number of Absentee Ballot Applications: 60

Number of Absentee Ballots: 60

Notes: The number of absentee voters and regular voters identified on poll list are off by 1. Canvassers reviewed poll lists again and found that voter #139 was listed as an absentee on one list and not the other. Reviewed absentee list and envelopes and determined that #139 is a regular voter not an absentee voter.
